## DETAILED ACTION

### *Double Patenting*

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 16 and 17 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 24-31 of U.S. Patent No. 6,039,569. Although the conflicting claims are not identical, they are not patentably distinct from each other because the compositions and the process steps are identical.

3. Claims 7 and 10-15 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-14 and 24-25 of U.S. Patent No. 6,186,790, in view of U.S. Patent 6,039,569. Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to one having ordinary skill in the art, at the time the invention was made, to use the pontic of the ('790) patent in the bridge of the ('569) patent, since they are made of the same material and fit each other perfectly.

4. Claims 7 and 10-15 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5 of U.S. Patent No. 6,200,136. Although the conflicting claims are not identical, they are not patentably distinct from each other because the structures and the compositions are identical.

5. Applicants' submission of a Terminal Disclaimer is noted, however the attorney who signed it, Ms. Reimer, is not an attorney of record. In the absence of a Power of Attorney only Ms. Knab can sign a Terminal Disclaimer. All patents mentioned in the rejections have to be included in the Terminal Disclaimer, in order to insure that the common ownership would be maintained.

***Allowable Subject Matter***

6. Claims 18-25 are allowed.

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later

than SIX MONTHS from the mailing date of this final action.
